

GUIDELINES for car auctions

Sequence: The auctioning of the items should take place as per the order in which they are shown in the catalogue.

Bidding: In order to bid, you need to have a bidder's number. You can obtain these at the pay office about one hour before the auction starts.
In order for you to be registered as a bidder, we require you to complete an "auction participation" form (available on the site), provide a valid photo identification and make a **deposit of €500.00**. In the event that you should not make a purchase in the auction, your deposit will of course be returned to you.
Without any exception, It is only possible to participate in the auction if you have been allocated a bidder's number!
